

Judul:

Observasi Konduktivitas Termal Fluida Terdispersi Partikel Mikro Berbasis Karbon Hasil Mechanical Milling Terhadap Penambahan Surfaktan Sodium Dodecyl Benzene Sulfonate = Observation of Thermal Conductivity of Carbon-Based Microparticle Dispersed Fluid as a Result of Mechanical Milling on the Addition of Sodium Dodecyl Benzene Sulfonate Surfactants

Pengarang/Penulis:

Fauzan Abdurrahman, author

Subjek:

Carbon--Composition; Sodium hydrogen carbonate

Nomor Panggil:

S-Pdf

Penerbitan:
