

Judul:

Efektivitas Airway Pressure Release Ventilation (APRV) dibandingkan Ventilasi Mekanis Konvensional dalam Manajemen Gagal Napas Pasien Tersangka Covid-19: Laporan Kasus Berbasis Bukti = The Effectiveness of Airway Pressure Release Ventilation (APRV) Compared to Coventional Mechanical Ventilation in Manegement of Respiratory Failure in Covid-19 Patients: an Evidence Based Case Report

Pengarang/Penulis:

Claudia Lunaesti, author

Subjek:

Acute respiratory distress syndrome; COVID-19 (Disease)

Nomor Panggil:

SP-Pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
