

Judul:

Uji kesesuaian real-time reverse transcriptase loop-mediated isothermal amplification iDetect™ SARS-CoV-2 detection kit dengan real-time reverse transcriptase polymerase chain reaction dalam mendeteksi SARS-CoV-2 = Comparison of real-time reverse transcriptase loop-mediated isothermal amplification iDetect™ SARS-CoV-2 detection kit and real-time reverse transcriptase polymerase chain reaction in detecting SARS-CoV-2

Pengarang/Penulis:

Ricky Fernando Adi S., author

Subjek:

COVID-19 (Disease)

Nomor Panggil:

SP-pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
