

Judul:

Studi In Silico Metabolit Sekunder Invertebrata Laut Indonesia terhadap Reseptor ACE2 dan Spike Protein SARS-CoV-2 Omicron sebagai Bloker Target Ganda = In Silico Studies of Secondary Metabolites from Indonesian Marine Invertebrate against ACE2 and Spike Protein SARS-CoV-2 Omicron Receptors as Double Targeted Blockers

Pengarang/Penulis:

Matheus Prayoga Claus, author

Subjek:

Marine invertebrates; Virus inhibitors; COVID-19 (Disease)

Nomor Panggil:

T-pdf

Penerbitan:

Fakultas Farmasi Universitas Indonesia
