

Title:

Studi Interaksi Molekuler Senyawa Propolis Sebagai Potensi Antiinflamasi Terhadap Toll-Like Receptor 4 Pada Terapi Periodontitis Secara In Silico
= Molecular Interaction of Propolis Compounds as Potential Anti-inflammatory Against Toll-Like Receptor 4 in Periodontitis Therapy: In Silico Study

Author:

Nadia Arum Ramadhani, author

Subject:

Periodontitis -- Treatment ; Dental scaling

Call Number:

S-pdf

Publisher:

Fakultas Kedokteran Gigi Universitas Indonesia
