

Judul:

Disfungsi gastrointestinal pascabedah risiko tinggi di ICU: Kajian terhadap kadar intestinal Fatty Acid Binding Protein (I-FABP), skor SOFA, balans cairan dan dosis vasopresor = Gastrointestinal dysfunction after high risk surgery in ICU: Study of Intestinal Fatty Acid Binding Protein (I-FABP) levels, SOFA score, fluid balance and vasopressor doses

Pengarang/Penulis:

Vincent Chrisnata, author

Subjek:

High risk surgery

Nomor Panggil:

SP-pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
