

Judul:

Studi Ekspresi Kromatin Remodeling (Chromodomain Helicase Dna Binding Protein 5) Dan Status Modifikasi Histon (Histone 3 Lysine 9 Trimethylation Dan Histone 4 Lysine 12 Acetylation) Pada Testis Dengan Azoospermia Non Obstruktif = A Study On Chromatin Remodeling (Chromodomain Helicase Dna Binding Protein 5) And Histone Modification Status (Histone 3 Lysine 9 Trimethylation And Histone 4 Lysine 12 Acetylation) In Non-Obstructive Azoospermic Testis

Pengarang/Penulis:

Paisal, author

Subjek:

Chromatin; DNA helicases; Histones; Testis—Molecular aspects; Epigenetics.

Nomor Panggil:

D-pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
