

Judul:

Pengaruh Injeksi Intra-Artikular Eksosom Sel Punca Mesenkimal Adiposa terhadap Regenerasi Tulang Rawan Model Osteoarthritis Domba Ovis aries: Kajian Histopatologis, Radiologis, dan Analisis Molekular = The Influence of Intra-Articular Injection of Adipose Mesenchymal Stem Cell Exosomes on Cartilage Regeneration in an Sheep Model Ovis aries of Osteoarthritis: Histopathological, Radiological, and Molecular Studies

Pengarang/Penulis:

Jessica Fiolin, author

Subjek:

Mesenchymal stem cells—Therapeutic; use; Exosomes—Therapeutic use; Cartilage—Regeneration; Osteoarthritis—Treatment; Injections, Intra-Articular

Nomor Panggil:

D-pdf

Penerbitan:

Fakultas Kedokteran Universitas Indonesia
