

Judul:

[;Analisis In Silico Potensi Senyawa Antikanker Ekstrak Daun Jati (Tectona grandis Leaf) dalam Mempengaruhi Differentially Expressed Genes (DEG) Sel Kanker Payudara/MCF-7 = In Silico Analysis of the Anticancer Potential of Tectona grandis Leaf Extract in Influencing Differentially Expressed Genes (DEG) in MCF-7 Breast Cancer Cells, Analisis In Silico Potensi Senyawa Antikanker Ekstrak Daun Jati (Tectona grandis Leaf) dalam Mempengaruhi Differentially Expressed Genes (DEG) Sel Kanker Payudara/MCF-7 = In Silico Analysis of the Anticancer Potential of Tectona grandis Leaf Extract in Influencing Differentially Expressed Genes (DEG) in MCF-7 Breast Cancer Cells]

Pengarang/Penulis:

Subjek:

Popular culture; National characteristics, Japanese

Nomor Panggil:

301.209 52 JAP

Penerbitan:

University of Hawaii Press
